

Inspiration Enters Into Agreement For 100% of the “Rottenstone North Gold Project” in Northern Saskatchewan bordering Ramp Metals Inc.

Vancouver, British Columbia - November 14, 2024, Inspiration (“Inspiration” or the “Company”) (ISP:CSE) is pleased to announce that it has entered into an arm’s length agreement for an undivided 100% interest in the “**Rottenstone North Gold Project.**” The Rottenstone North Gold Project or (the “**Project**”) is located in Northern Saskatchewan, Canada, approximately 115 kilometers North of La Ronge, Saskatchewan. The Project consists of 1 mineral claim covering approximately 4,512 hectares.

The Project is located within the Rottenstone Domain, a regional northeast-southwest geological corridor, that includes the past producing Rottenstone nickel-copper-platinum group elements-gold mine (Ni-Cu-PGE-Au), which from 1965-1968 produced some 26,057 tonnes of high-grade grading 3.28% Ni, 1.83% Cu and 9.63 g/t Pt+Pd+Au (Saskatchewan Mineral Deposits Index #09587).

Inspiration’s Project is directly northwest and borders Ramp Metals Inc.’s Rottenstone SW gold project (Figure 1) which reported multiple gold zones from discovery hole Ranger-01 that included 73.55 g/t Au and 19.50 g/t Ag over 7.5 metres from 227 m, including 182 g/t Au and 60.8 g/t Ag over 1.5 m from 230.0 metres (Ramp Metals news release dated June 17, 2024). Inspiration management cautions that past results or discoveries on properties in proximity to Inspiration may not necessarily be indicative of the presence of similar mineralization on the Company's properties.

“This is a signal of renewed focus on the growth of the Company. This gold Project is the right address in Saskatchewan, which is one of the most business and mining friendly regions in the world. This new gold project directly borders the exciting discovery of Ramp Metals Inc.” stated Charles Desjardin, President of Inspiration. “We are now positioned to move forward and get the Project underway. Management is optimistic about the short and long term growth prospects of Inspiration and with only approximately 15 million shares outstanding there is tremendous leverage to success.”
